Subject: Extension of Requirements of Stipulation Agreement, White Cap Mine,
M0150047, Emery County, Utah

Dear Mr. Larkin:

The Division has been made aware of your request to extend the time allowed to complete the requirements of the Stipulation Agreement associated with the White Cap #8 mine, Cause Number S/015/047. We understand that the Board secretary will schedule this matter on the agenda of the February Board hearing to be held on February 28, 2007 and you will need to appear at that hearing to justify your request. Because of the drawn out nature of this matter, the Division is concerned about further extensions. However, we will not oppose the extension as long as you can provide the following:

- By January 30, 2007, GRD must provide some written documentation or proof of the arrangement entered into with Neilson Construction to take over the site. (You may want to complete a transfer application, which would transfer the permit to Neilson Construction. The transfer form MR-TRS can be found on the Division's website.)
- By February 21, 2007, additional reclamation surety must be provided for the White Cap #8 mine in the amount of \$8,600. This will bring the total bond for the site to \$18,600, which is the Division's average cost for reclamation of a 5-acre mine site.

Should the above items not be provided, the Division may not be able to support your extension request and may proceed under the authorization in the prior Order with forfeiture of the existing bond.

Please call me at (801) 538-5325 if you have any questions.

Sincerely,

A handwritten signature in black ink that reads "Daron R. Haddock". The signature is fluid and cursive, with the first name "Daron" being more prominent than the last name "Haddock".

Daron R. Haddock
Permit Supervisor
